PROFESSIONAL SUMMARY

Full-stack developer and product designer passionate about building user-centered web applications that solve real problems. Experienced in end-to-end product development, from user research and design systems to scalable backend architecture. Driven by creating intuitive interfaces and meaningful digital experiences that bridge technical execution with user needs.

EDUCATION

Bachelor of Technology (Artificial intelligence)
Newton School of Technology, Rishihood University

2024 - 2028
Grade: 7.478/10.0

EXPERIENCE

Lead Organizer - GDGoC Rishihood
GDG Rishihood

December 2024 - Present
Rishihood University, Delhi NCR

- Leading 35+ member team in organizing technical events, managing end-to-end logistics, guest coordination, and community building for 500+ member developer community
- Organized events like **Visual Vortex 1.0 Designathon** (75+ teams registered), **Ideaverse 1.0 Ideathon** (100+ participants): Delivered UI/UX design workshop covering design thinking, mentoring participants on design principles

INTERNSHIPS

Intern - Indic Summer School (ISS)
Rishihood University

January 2025 - Present
Rishihood University, Delhi NCR

- Assisting in the **planning and execution** of ISS, ensuring smooth program delivery and Supporting **event coordination and logistics**, collaborating with the university team.
- Engaging with participants to enhance their **learning experience and involvement**.

PROJECTS

CampusConnect – Student Achievement Opportunities Platform ([Github](#))

October 2025

- **Stack:** Next.js, React, Node.js, Express.js, MongoDB, Tailwind CSS, Framer Motion
- Designed and developed a full-stack platform centralizing student achievements and opportunities across campus, solving documentation fragmentation through verified profiles and searchable achievement cards
- Architected RESTful API with JWT authentication, implementing CRUD operations MongoDB Atlas

HiGrow – Workshop Organization Platform ([Github](#)) ([Demo](#))

July 2023

- **Stack:** Next.js, SCSS, Tailwind CSS, Figma
- Designed accessible interface simplifying online workshop discovery and registration, reducing organizational friction through streamlined user flows
- Applied user-centered design principles from research through prototyping, iterating based on usability feedback to enhance workshop organizer and participant experience

CERTIFICATIONS

Hacktoberfest Digital Ocean ([Link](#))

October 2024

Successfully completed the challenge by contributing **four accepted PRs**.

SKILLS

Computer Languages: JavaScript, CSS, HTML, Python

Software Packages: MySQL, Express JS, Bootstrap, Node.js, React, Prisma ORM, Next JS, Tailwind, Figma

Soft Skills: Presentation Skills, Critical Thinking, Creativity, Research, Time management, Public speaking

Others: Supabase, Photoshop, Social Media, Graphic Design

EXTRA-CURRICULAR ACTIVITIES

- Winner, **Prod-G (Product Management Competition)** — *IIT Roorkee*.
- **Designathon (Bluelearn)** — Secured 2nd position.
- Runner Up, **DCode Hackathon** (Full stack hackathon 100+ teams participated)
